SAP FICO Training Course

An essential part of the SAP ERP system is the **SAP FICO (Financial Accounting and Controlling)** module.

This course is designed to provide learners with comprehensive knowledge of financial accounting and internal cost controlling, both of which are essential to managing business processes effectively.

At **FirstVITE**, we bridge the gap between theoretical knowledge and real-time business application by offering instructor-led live sessions, real-time projects, and hands-on labs.

5-in-1 Course Structure

This course includes **five essential components** that make you job-ready:

1. **SAP FICO Core Training**

2. **Live Project Exposure**

3. **Soft Skills and Interview Training**

4. **Resume Building & Profile Optimization**

5. **Certification Exam Preparation**

Real-time projects—hands-on practice

We emphasize practical application through real-world case studies. You'll get to:

- Work on industry-level projects and assignments
- Simulate actual business environments
- Use SAP S/4HANA & ECC platforms for hands-on practice
- Gain confidence in handling financial processes independently

Takeaways of Your Investment

Our **SAP FICO course** is an investment in your future**; learn, apply, and grow.**

Here's what you gain:

- **Comprehensive Expertise:** Gain a complete understanding of financial accounting and controlling processes.
- **Practical Experience:** Apply your learning in real-time projects to build competence.
- **Professional Certification:** Add a recognized certification to your resume, proving your SAP FICO expertise.
- **Career Upliftment:** Open doors to high-paying job roles across industries.
- **Placement Support:** Our committed placement staff helps with interview scheduling, resume writing, and practice interviews.
- **Lifetime Access:** You can always access study guides, expert sessions, and course recordings.

Learning Outcomes

Upon successful completion of the course, you will:

1. Understand SAP FICO architecture and key modules
2. Configure and manage the general ledger, accounts payable, and accounts receivable
3. Execute end-to-end financial transactions within SAP
4. Set up and manage controlling elements such as cost centers and internal orders
5. Perform financial closing and reporting
6. Generate reports and financial statements
7. Gain proficiency in using SAP S/4HANA for FICO processes
8. Integrate FICO with other SAP modules like MM and SD
9. Analyze and troubleshoot real-time business financial issues
